

To all business associates of
TASS Wertpapierhandelsbank GmbH

Hofheim, 16 March 2010

Changes in corporate structure

Dear Sir or Madam,

With official registration (German Commercial Register No HRB 37920) and going into effect starting 01. April 2010 we would like to announce the following:

The managing directors Mr. **Hansjoerg Polz** and Mr. **Frank Polz** will be changing positions and making up the newly implemented supervisory board of TASS Wertpapierhandelsbank GmbH. Also joining the supervisory board is Mr. **Matthias Kasanmascheff**, with Mr. Hansjoerg Polz taking on the position of chairman of the supervisory board.

Mrs. **Margot Polz** will remain in her position as managing director of TASS Wertpapierhandelsbank GmbH. Newly appointed managing directors: Mr. **Joerg Suchomel** and Mr. **Carsten Ringler**.

Both men are long standing senior directors of TASS Wertpapierhandelsbank GmbH. They will accompany the dynamic development of a financial service provider previously focused primarily on the floater segment and now growing into a global specialist for credits. Since 2008 transactions in the fixed bond segment have been increasing. Comprehensive trading transactions and orders increase the pricing quality and market depth for both product classes.

With our business field "**Neutral Pricing/Pay-per-View**" we complete our value-added chain in the field of market data vendoring and co-consulting. In this way our neutral and market-driven secondary market prices in addition to the TASS FRN Credit Indices are being put to use by many traders and staff from the internal staff departments like Research/Syndication/Back- and Middle-Office as well as Risk Controlling.

In case you should have questions about our company or our product range, please feel free to contact us at any time.

Best regards

The Managing Board
